

# Modules

Modules can be displayed in different styles with additional icons and badges. Modules are grouped according to the positions in which they are published. Additionally, you can filter them by keyword and positions to which they are assigned.

To configure this part go to Extensions->Template->Waxom->Options->Modules

Customize your modules appearance and select your favorite style, icon or badge. To configure your modules, please visit the [modules settings](#) screen.

Main slider (2)	<input type="text"/>	Default ▾	<input type="checkbox"/> Center	Default ▾ H1 H2 H3 H4 Extra Large	<input type="text"/>	Default ▾	<input type="checkbox"/>   
Header for news	<input type="text"/>	Default ▾	<input type="checkbox"/> Center		<input type="text"/>	Default ▾	<input type="checkbox"/>   
Header for matches	<input type="text"/>	Default ▾	<input type="checkbox"/> Center	Default ▾	<input type="text"/>	Default ▾	<input type="checkbox"/>   

Setting	Description
Class	Allows you to add your own custom CSS classes
Style	Lets you choose a widget preset style from the select box.
Center	It allows you to center the content module
Title	Define the size of the title
Icon	Allows you to select an icon from the icon preview. You can also enter a path to a custom image. In WordPress looks into the /wp-content/uploads folder. So you only need your custom path, for example MY-IMAGE.jpg.
Badge	Adds a badge to your widge. Type in the text for the badge and select a colo
