# How to Add/ Edit a Portfolio
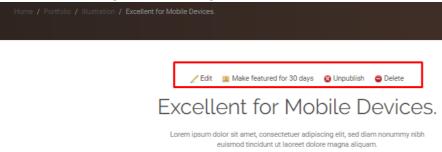

To output Matches used component "Cobalt 8".

It allows you to quickly and easily edit and add materials on your site.

- First, you need to log in by going on this way https://sitename/admin

- Go to the Portfolio page
- To edit and management existing content, use the control panel of a single article.

You can also edit articles with admin panel(https://sitename/administrator (https://sitename/administrator)), go to Components->Cobalt 8->Records.
